

# DOES THIS LOOK FAMILIAR?

**With so much data being created on so many servers  
it is becoming impossible to keep an watch over  
when disks are going to fill up.**

**Otium Software's Utilistor™ Disk Space Monitor (DSM) keeps  
watch over the state of your disks so that you have one less thing to  
worry about.**

**With pricing at less than £100 per server, your budget is another  
thing you needn't worry about either!**

**Providing the Obvious Answer**
